The **DIVERSIFIED PROFESSIONAL COACHING, LLC Individual Coaching Program** provides professional business coaches to assist coachee clients to meet their full potential while developing and focusing on vision, mission, goals, values, and effective business practices.

Program Description

The DPC Individual Coaching Program designation is an individual coaching engagement which includes one-on-one, personal, and confidential meetings, tailored to the coachee's specific needs. Text, email, and phone access are also included. The coach can conduct individual assessments, as appropriate, to include DISC, One Page Business Plan, and other self-reported business and personal inventories. As a result of a joint analysis, the coach will use an understanding of the coachee's strengths, weaknesses, goals, and dreams to define and develop business goals, clarify best strategies and tactics, and execute on appropriate action steps.

Coaching Options

Weekly Coaching | A 60-to-90-minute coaching session once per week, scheduled at the same time each week, 4 times per month. Additional phone, text, or email support available, if needed.

Bi-Weekly Coaching | Two 60-to-90-minute coaching sessions, scheduled at the same time each 1st and 3rd or 2nd and 4th week of the month. Additional phone, text, or email support available, if needed.

Monthly Coaching | One 60-to-90-minute coaching session per month. Additional phone, text, or email support available, if needed.

Benefits of the Program

DPC professional business coaches hold the Certified Professional Business Coach (CPBC) designation, as a minimum, and are trained to meet the many aspects of business coaching. As members of the Professional Business Coaches Alliance (PBCA) the coaches are part of a community of Master Business Coaches, other professional business coaches, professionals from the financial services industry, other businesses, business executives, government, sports, and education.
